Charity Flowers

Next time you send flowers, why not give more than just the bouquet?

Every time that someone orders a beautiful bouquet through Charity Flowers Direct, they give 15% of the retail price of the item purchased to the charity of your choice (there are up to 170 charities involved within the scheme).

So, by placing CARE on the order form, not only will you be showing someone that you care, you will be helping us, too. And that makes it double the gift! You can order online at www.charityflowers.co.uk, making your choice from a wide range of stunning seasonal arrangements, by telephone using the 24 hour Hotline 08705 300 600 (from overseas 01756 702825), or request an order form from us.

Orders are despatched Monday to Friday and deliveries are accomplished within 48hrs of despatch. (Please place orders by noon for same day despatch).

Charity Flowers Direct is owned by Age Concern England, a major national charity, and is the only flowers by post service in the UK that donates all of the profit back to charity.
